All-Star Handbell Choir Audition Material

2027 Handbell Musicians of America National Seminar

Record a video of yourself performing alone. Record from the front in a well-lit space. Perform the following exercises at a comfortable tempo of at least ♩=70 bpm. Exercises do not all have to be at the same tempo. Perform exercises 1-5 using any bells in any octave. Perform either exercise 6A, 6B, 6C, and/or 6D, depending on which position(s) and range of handbells you would prefer to play in the All-Star Handbell Choir. You may perform multiple positions, but they must be edited into one video file.
